GFCI, 20 Amp Outlet

Catalog # **GFTR20W**

A 20 Amp GFCI receptacle is a 125V outlet designed to provide Class A ground fault protection by automatically shutting off power when a ground fault of 4-6 mA is detected. It features built-in TEST and RESET buttons for safety verification and comes as a Tamper-Resistant device for added safety in residential and light commercial use.

GFCI, 20A, White/Black

Features

- Ground fault EOL indicator
- 1 year warranty
- No power at face if reverse wired
- White face plate
